Reading comprehension strategies
Build students’ reading confidence with these top tips!

- **Check it makes sense**
  Check that words, phrases, and ideas make sense. If they don’t make sense, read around the sentence and think about the rest of the text to work them out.

- **Look for clues**
  Think like a detective and look beyond what the words say to the clues underneath.

- **Decide main points**
  As you read, watch out for the main events or the most important information.

- **Notice text features**
  Be aware of the type of text you’re reading. Notice features that the writer has used to help you understand the text.

- **Question and predict**
  Make predictions and ask yourself questions. Then read on to find out.

- **Picture in your mind**
  Make a picture in your mind or think about feelings or sounds to make the text more real.

- **Think and remember**
  Use what you already know about the world or other books to understand the text more.

When Rosie and Ben wanted to understand an old cave painting, Grandpa took them back in time in his amazing van. Soon they were in a cold place with mammoths and wolves - and the van was in a hole.
When scientist Jim Wood invited Grandpa to visit his fantastic new house, Rosie went too. But where was Jim Wood? And what was his house computer, Vesta, doing?

It was an ordinary day. Rosie and Alice were in the backyard. But there was something in the bushes – what was it? What was happening? Ben and Max needed to find Grandpa, but he wasn’t home – he was millions of years away. What could they do?

A mysterious gas is escaping from a hole in the Happy World tanker. Soon, everyone is laughing, but they don’t know why. What will happen when the laughter stops? Can Grandpa find a cure for the laughing illness before it’s too late?
Can you recommend a CLIL series?

Reading comprehension strategies
Build students’ reading confidence with these top tips!

  Think like a detective and look beyond what the words say to the clues underneath.

- **Decide main points**
  As you read, watch out for the main events or the most important information.

- **Notice text features**
  Be aware of the type of text you’re reading. Notice features that the writer has used to help you understand the text.

- **Question and predict**
  Make predictions and ask yourself questions. Then read on to find out.

- **Picture in your mind**
  Make a picture in your mind or think about feelings or sounds to make the text more real.

- **Think and remember**
  Use what you already know about the world or other books to understand the text more.
