

Why did you choose the Oxford Test of English?

It is the **module-based test experience** that institutions and test takers are demanding and **will even demand more in the near future.**

How did you find the experience of your first test sessions this Summer?

Brilliant. I have no words to express my appreciation to all the Oxford University Press team involved. When you embark on a new project you can never be 100% certain how things will go but had I known **things were so smooth** with such a prestigious institution **I would have chosen the Oxford Test of English earlier.**

How does the Oxford Test of English compare to other language proficiency exams?

The bureaucracy involved with other exams is time-consuming and exhausting... **This is where Oxford succeeds: You go and deliver.**

What do your students most like about the Oxford Test of English?

In 2022 teens are totally different to what they were 20-something years ago... You cannot give them an exam that has not changed in decades. **They need something more immediate,** they need to be able to register days before the exam, take it and get their marks days later.

Tell us more about your competition and Oxford Test of English scholarship for your first student taking the Oxford Test of English in Ireland?

In all honesty, bringing the test to Ireland was challenging as we were a bit uneasy about the technical difficulties that might arise but **once more Oxford University Press proved to be ready for the challenge and succeeded 100%.**

We take Spanish students to Ireland to learn English and our academic team thought that it would be a great idea to start our new project by granting the student with the greatest improvement, the possibility of taking the Oxford Test of English. They were all thrilled and super motivated, not to mention how much their parents appreciated our gesture. Our winner is now taking online lessons with us and looking to improve her Oxford Test of English grade.

What some people do not realise is that you can take the Oxford Test of English without having to “prepare” yourself for the test, so the winner’s stay in Ireland was 100% fruitful.

Tyrone C. Duffy
Head of Schools –
Exams Norte, Spain
