

Congratulations on being awarded an Oxford Test of English scholarship from the competition to be the **first-ever student to take the test in Ireland.**

Can you tell us about the experience offered to you by Exams Norte?

First of all, it was a big surprise for me because I did not expect to have **the opportunity of taking an exam during my stay in Ireland.** Getting this scholarship made me feel nervous and proud at the same time, **I am so glad I got it.**

What will certifying your English language proficiency with the Oxford Test of English help you achieve?

Nowadays is very important to have your English level certified, in my case to **gain access to university or to go to an Erasmus,** then I will need it to get a job.

What did this experience mean to you?

It was a big experience that let me **prove my level** while I was staying in Ireland, that is, **I could do the exam in my best moment**.

What do you most like about the Oxford Test of English?

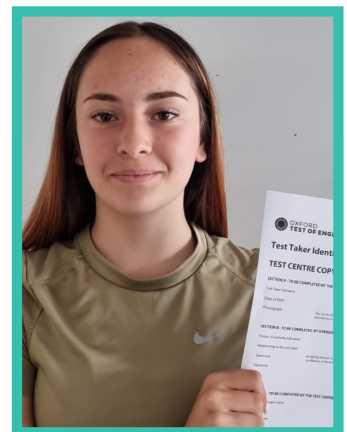

The best bit of the Oxford Test of English is that it is progressive so you can prove your level without sticking to just one, for example, I could prove my B1 level and B2 level too in some parts of the exam, so I don't have to take them again the next time I try to prove my B2 level.

What would you recommend to others about the Oxford Test of English?

I would recommend to others to try the Oxford Test of English because it **makes it easy to have your English level certified**.
